

MANIFOLDING DUCTWORK

Benefit from manifolding ductwork quickly and accurately in a controlled shop environment before sending to a jobsite.

With CAD to CAM software interoperability, create complex ductwork systems and ease the installation process by pre-assembling on the floor prior to shipping to the jobsite.

MANIFOLDING DUCTWORK

With the ability to manifold ductwork in the shop the contractor can save not only money but time. This type of shop of fabrication lends itself to controlling quality and meeting or beating tight construction schedules. Shop fabrication is more efficient.
